lowell george
Oh, hello...give me missing persons, they say
What is it that you need?
I said oh, I need him so...She said you've
Got to stop your pleading
And no matter what I do,
Even pray to heaven above,
All I ever get from you is
Long distance love
I read the papers
And I got the blues
I was so sad to hear the news
Help wanted, but not enough
You know these times are gettin' rough
And no matter what I do
Even pray to heaven above
All I seem to get from you is long distance love
(Whoo-oo-oo)
Oh your toes were so pretty
And your life so sweet
I wonder do you know
Do you know you hurt me so
And no matter what I do
Even pray to heaven above
All I ever from you is
Long distance love
Long distance love
(oo-oo-oo)
