

Little Dragon "Looking Glass"

Visit "[Looking Glass](#)" on MotoLyrics.com

Spilled our hearts our souls until it forced us to swim
But all the water pass was sinking fast
Gave our all until the saw was digging in
I watch it bleed, I let it be

Made me have to throw the looking glass, you, you
Made it cold and made my summer pass, you, you

The moon, the dust, the dreams, the rust are shattered
now
I let them pass, I let them dance
Stolen time, the crooked line is pointing up
Were stars away blazing

Made me have to throw the looking glass, you, you
Made it cold and made my summer pass, you, you

Made me have to throw the looking glass, you, you
Even made it cold and made my summer pass, you,
you
