Rushing out the door at midnight  
I found myself breathing fire  
There's just one way to cure my heart from you  
'Cause I can't let go, I'm still loving you so

Go run about the streets like it's a race  
Go run about, run about  
Oh, with the perfect plan you play with  
What you can and run about

You think you've got it all set up now  
This fever caught me in the rush  
There's just one way to cure my heart from you  
Because I can let go, I'm still loving you so

Go run about the streets like it's a race  
Go run about, run about  
Oh, with a perfect plan you play with  
What you can, run about

Go run about the streets like it's a race  
Go run about, run about  
Oh, with a perfect plan you play with  
What you can

Go run about the streets like it's a race  
Go run about, run about  
Oh, with a perfect plan you play with  
What you can and run about, run about

Go run about the streets like it's a race  
Go run about, run about  
Oh, with a perfect plan you play with  
What you can
