Shelter me
Promising
You'll be with me, till my time

I'll believe
The lies you feed & truly feel you love me so

It's all I need to hold me together
Hold to the bone, and soon I would shatter

Shelter me
Promise me
You'll be with me, till my time comes

It's all I need to hold me together
Hold to the bone, and soon I would shatter

Till my time
Till my time
Till my time
Till my time

It's all I need to hold me together
Hold to the bone, and soon I would shatter

Shelter me
