You want to dance with the angels?  
Then embroider me with gold, and I will fly with the  
angels  
and you can dance with me.  
Sing with the angels?  
Then show me a song, and I will strum with the angels  
and you can dance with me.  
But you want to fall fashionably in love with a woman  
in love with a life you'll adore, in love with a woman  
you'll adore  
Under my wings, you'll start to ask yourself  
Under my wings, you'll learn to fly  
Under my wings, you'll come to understand how to  
hold on - if you want to.  
Or you can dream of the frog lgs sitting in the church  
in the glass, in the sand where your foot steps.  
Or you can dream of the angels in the air -  
don't you see me?  
I float in skies, in your eyes, in your eyes.  
You want to dance with the angels?  
Then embroider me with gold, and I will fly with the  
angels  
and you can dance with me.  
Under my wings, you'll start to ask yourself  
Under my wings, you'll learn to fly  
Under my wings, you'll come to understand how to  
hold on - if you want to.  
You want to dance with the angels?  
Then embroider me with gold, and I will fly with the  
angels  
and you can dance with me.
