"Adore"

Visit "[Adore](#)" on MotoLyrics.com

Laying on the floor listening to your records
Thinking how I met ya, stayed around for so long
and oh-I'm-glad, the time we had
It really helped me out and I hope that you ain't got it
bad

I had a feeling about you and it's all we know
you got me feeling high, you kept me from the low
and it was just what I was looking for
you don't always need somebody to adore

I wanna thank you for the day, I had the best of times
but you know that I can't stay, I gotta leave it behind
you brought me just what I was looking for
you don't always need somebody to adore

it was sheer perfection when you gave me your
affection
so carefully we touched, and the music filled us up
and when it don't last long it can't go wrong
so I treasured it inside of me to keep it staying strong

I had a feeling about you and it's all we know
you got me feeling high, you kept me from the low
and it was just what I was looking for
you don't always need somebody to adore

I wanna thank you for the day, I had the best of times
but you know that I can't stay, I gotta leave it behind
you brought me just what I was looking for
you don't always need somebody to adore
