(Stop, don't talk)

Shut your mouth
Don't wanna hear about your trip down south
Neither the novel you've been dreamin' about
Something about you just makes me doubt
'Cause it really won't happen today
Or probably not some other day
Nothing will happen whatever you say
If you're not ready to change your ways
You gotta work so hard
Or else you won't get far
So we wait for you to start
And when your done just give us a call

You gotta act don't talk
Say: act don't talk
You gotta act don't talk
Say: act don't talk

Action!
Hey Mr congress man talking
When all the people are yawning
Just give us a call and something happens
'Cause we are tired of discussion
And we are tired of refections
And we do have a question
When will you give us some action?
Come on now, hit us hard
There's too much bushy talk
Now we wait for you to start
And when you're done just give us a call

You gotta act don't talk
Say: act don't talk
You gotta act don't talk
Say: act don't talk

(Hey you, don't talk)
