It's getting worse all the time
They buy you drinks, you feel fine
You think you leave it behind
But Saturday it creeps from behind
and stab your back at your defence
Those are floating that I can stand
Wish there were something that could mend
But it's not the drinks that's the problem

All in the system
Tomorrow you'll forget it
All in the system
Next week back in old habits
All in the system
You try but you can't smash it
All in the system
No matter if you had it

I'm going out of my mind
It happens every time
We are no more than good friends
But then stuff just happens

All in the system
Tomorrow you'll forget it
All in the system
Next week back in old habits
All in the system
You try but you can't smash it
All in the system
No matter if you had it

You think you leave it behind
But next day it comes from your side
I'm whispering in your ear quietly
You got no right to feel sorry

All in the system
Tomorrow you'll forget it
All in the system
Next week back in old habits

All in the system
You try but you can't smash it
All in the system
No matter if you had it

All in the system
All in the system
