"The End"

Visit "[The End](#)" on MotoLyrics.com

You've done it, now we are standing on the edge
Oh yeah we seen it comin' but always tried to make
escape
Now there's a party started and it will be like nothing
else
So don't you try to stop it, cause we're in need to make
a change

Cause no, there's no turning back again
Cause nows the time we've reached the end
No, there's no turning back again
cause no, the time is it

this is the end, my friend
There's no turning back again
We can't go on playing games
No or pretend, that this will last forever
This be the time now we have reached the end

oh look at, oh what we did back in the day
there is a new party
and we will celebrate this day

cause no, there's no turning back again
cause nows the time we've reached the end
no, there's no turning back again
cause no, the time is it

this is the end, my friend
there's no turning back again
we can't go on playing games
no or pretend, that this will last forever
this be the time now we have reached the end

no, there's no turning back again
now's the time we've reached the end
no, there's no turning back again
cause no, the time is it
