Easy driver, she's a wicked rider
She's smooth and she's skinny and she's probably
mean
Easy driver, pull up beside her, roll down the window
on this fine machine

Chorus:

(Ooh ooh ooh) don't turn away, (ooh ooh ooh) just give
me a sign
(Ooh ooh ooh) don't be afraid, (ooh ooh) love is so hard
to find

Easy driver, get on up beside her, she don't drive like
she knows the way
Easy driver, road's getting wider
There's room to run and she might skate away
Come on back, baby what you say

chorus

One lane away from love, the story of my life
Could I be good enough for your lonely avenue tonight
It's a lonely avenue tonight

chorus

Easy driver, she's a wicked rider
She's smooth and she's skinny and she's probably
mean
Easy driver, get on up beside her, roll down the window
on this fine machine

Easy driver, oh oh oh oh, easy driver, easy driver, easy
driver (easy driver)
Easy driver, easy driver, easy driver, easy driver
