Verse 1:

This is my conversation with heartache  
I'll never understand if I don't listen  
I'm trapped inside this place with no escape  
So won't you tell me what I'm missing

Chorus:

When my heart is screaming rescue me  
You will only see it in my eyes  
If you ever leave I want you to take me with you  
You mean everything and there's nothing we won't get  
through  
And if you ever leave I know that I'm gonna need you to  
help me out, help me out, help me out.

(Lalala lala lalala X2)

Verse 2:

If you need me to remember you, I'll take a picture and  
lock it in my heart.

Out her in the battlefield I lose all round a reason and  
my feeling and my memories I watch them fall apart  
yeaah.

Chorus:

When my heart is screaming rescue me  
you will only see it in my eyes.  
If you ever leave I want you to take me with you  
You mean everything and there's nothing we won't get  
through  
And of you ever leave I know that I'm gonna need you  
to help me put, help me out, help me out

(Lalala lala Lalala X2)

Verse 3:

I'm only human so if you cut me I'll bleed  
You being here is so necessary to me  
This pain is flooding my lungs and tearing my heart  
apart believe it, there's no meaning  
You can do whatever please stay with me

Chorus:

If you ever leave I want you to take me with you  
You mean everything and there's nothing we won't get  
through  
And if you ever leave I know I'm gonna need you to  
help me out, help me out, help me out. X2

(Lalala lala lalala X4)
