

## London Airspace "Everything To Me"

Visit "[Everything To Me](#)" on [MotoLyrics.com](https://MotoLyrics.com)

Watching as the days go by the seasons change  
the memories we had  
as I dare to look back

Maybe in a year or two you'll think of me  
I'll think of you tonight  
just one last time

Could you, could you spend some time with me,  
spend some time with me  
because it's everything I need  
it's everything to me

People come and people go,  
keep them close and let them know you care  
that you'll always be there

And all those songs we used to sing  
that remind us of teenage tragedy are gone  
but we will stay strong  
(we'll stay strong)  
Could you, could you spend some time with me,  
spend some time with me  
because its everything I need  
it's everything to me

Everything it's everything  
(you're everything I need)  
Everything you're everything

Could you, could you spend some time with me,  
spend some time with me  
because you're everything I need  
you're everything

Could you, oh tell me oh could you  
spend some time, spend some time with me.
