Taking, taking and giving me all I need  
your straying straying and making the same mistakes  
I am, I am, I am waiting for this to, this to  
start breaking

Gave it up, I gave it up for you  
I wanna see you move through  
the dark when I am gone

Making, making and giving me every excuse to leave  
you're praying, praying and hoping that I will never see  
I am, I am, I am waiting for this to, this to,  
start breaking

Gave it up, I gave it up for you  
I wanna see you move through  
the dark when I am gone

I gave it up  
don't tell me I gave it up  
don't tell me we gave it up  
we gave it up don't tell me we gave it up

gave it up I gave it up for you  
I wanna see you move through  
the dark when I am gone
