I saw you standing on the corner

Looking lonesome and low

All I want to do is to tell you

Days to Come are Days of Gold

I want to take you by the hand girl

I want to tell you I love you so

Just walk by my side girl

Days to Come are Days of Gold

Days to Come are Days of Gold

We're gonna turn over a new leaf

Brighter days soon to come

Soon to come for you to me

I want to take you by the hand girl

I want to tell you I love you so

Just walk by my side girl

Days to Come are Days of Gold

Days to Come are Days of Gold

We're gonna turn over a new leaf

Brighter days soon to come

Should've come for you to me
