[Intro]

It's about that time y'all
It's your boy DJ Mark The Spot
Lonny Bereal
Love Games Part 2

We crushed Love Games Part 1
Y'all get ready for part 3
We take this R&B serious

Been sitting by this phone all night
Oh whoa, oh, whoa
Whenever we're apart it's not right
You know it
Been way too many months, I'm countin as it goes
Hard for me to work and everybody knows
They see right through my smile
They tryna figure out what's wrong
But I lie and tell em I'm cool

All this cursin and fightin isn't cool
Don't nobody make me mad as you do
But when it's all said and done
Don't want nobody else but you
You

[Chorus]

Now let's both say I'm sorry
Let's not talk about it
We can just make up and have ourselves a private
party
When it's all said and done
Don't want nobody else but you
And I know you feel like I do

If you and I could swallow our pride
Be one of the greatest love stories all time
I know it
Been way too many months
I'm countin as it goes
Hard for you to work

And everybody knows
They see right through your smile
And believe I know you how
Nobody else does, you don't wanna be away from love

All this cursin and fightin isn't cool
Don't nobody make me mad as you do
But when it's all said and done
Don't want nobody else but you
You

[Chorus]
Now let's both say I'm sorry
Let's not talk about it
We can just make up and have ourselves a private
party
When it's all said and done
Don't want nobody else but you
And I know you feel like I do

Through them bad times and them sad times
Girl let's try to make that last, fight the last one
If we get to better days, girl don't ever take
That long to come back to me
Oh because I miss your touch, miss your love
Can't go through that again baby 'cause it's too much
And I know you feel the same
When it's all said and done
It's always been the same

All this cursin and fightin isn't cool
Don't nobody make me mad as you do
But when it's all said and done
Don't want nobody else but you
You

[Chorus]
Now let's both say I'm sorry
Let's not talk about it
We can just make up and have ourselves a private
party
When it's all said and done
Don't want nobody else but you
And I know you feel like I do.
