feat. Watts Stix & D&D

Yo, it's Lonny Bereal  
Aye DJ Mark The Spot  
I wanna do my own drop this time

And I brought my little brother D&D and my fellow  
brother Stix  
Let's go!

Before we say anything  
You gonn say no, thank you  
Cause you think I'm full of shit  
Wanna make me pay for what I never did uh

We can be lovers  
Or friends with benefits  
There's no limit  
To what we can do oh oh  
I'd like to

[Chorus]  
I just wanna love you, I just wanna love you  
I just wanna love you  
Don't be so mean to me  
Girl, you drive me crazy  
Make me wanna settle down and turn you into my lady  
I just wanna love you, I just wanna love you  
I just wanna love you  
Don't be so mean to me

You're safe for me, don't complicate it  
Let's do it over and over and over and over and over  
and over again

If you give me a chance I'ma take my time on you  
I'ma make that pussy lay  
So you put that ass in cardiac arrest  
Let me read from you stretch now

You act like you don't want it

But your body's saying something different  
So tell me what you gonna do  
Cause I just wanna love you

[Chorus]

I just wanna love you, I just wanna love you  
I just wanna love you  
Don't be so mean to me  
Girl, you drive me crazy  
Make me wanna settle down and turn you into my lady  
I just wanna love you, I just wanna love you  
I just wanna love you  
Don't be so mean to me

You're safe for me, don't complicate it  
Let's do it over and over and over and over and over  
and over again

Okay, you might think that I kick the same  
Get my card talk or what I gotta spit to get in that thing?  
But this ain't the same  
No change can make love change  
But this change get to see games  
Front row, girl meet James  
Now this D Wade, a lot on yo mind  
This ain't cheap grade  
I don't usually treat this like  
But no need for talk  
One hit, have you moonwalk  
Retract all the back talk  
Re-runs, want some?

[Chorus]

I just wanna love you, I just wanna love you  
I just wanna love you  
Don't be so mean to me  
Girl, you drive me crazy  
Make me wanna settle down and turn you into my lady  
I just wanna love you, I just wanna love you  
I just wanna love you  
Don't be so mean to me

You're safe for me, don't complicate it  
Let's do it over and over and over and over and over  
and over again  
Now get in this car, girl.
