Girl I gotta know, yeah
Is how you ain't got no man when you're so beautiful
damn
If I gotta go out my way just so you can be close, I will
Do whatever I gotta do waiting for you
To give me the go, don't make me wait too long, too
long

Girl I just wanna love you, right, right now, hey
Cause I've been working my breaking and you explain
out
Ain't nobody ... I gotta be out of my mind
If I don't take you, love you
Don't worry about a thing, I got you
Then I'm gonna touch you, hold you
What I gotta do to make you mine?
I know you heard about my player ways
I gave them all up today
If you let me take you, love you
I'll be a fool if I don't make you mine

Need a different approach with you
You're nothing like them other girls who came before
you
Used to have my feelings from ...
Know I wanna show you, ... I'ma love you like a romance
supposed to
And you know what I wanna do

Girl I just wanna love you, right, right now, hey
Cause I've been working my breaking and you explain
out
Ain't nobody ... I gotta be out of my mind
If I don't take you, love you
Don't worry about a thing, I got you
Then I'm gonna touch you, hold you
What I gotta do to make you mine?
I know you heard about my player ways
I gave them all up today
If you let me take you, love you
I'll be a fool if I don't make you mine

Baby girl... you're all I want
Just let me be the one that never leave you lonely
Stay right by my side, side,
I want you to be my girl, whoa,
Baby let me take you, love you
Don't worry about a thing, I got you
Then I'm gonna touch you, hold you
What I gotta do to make you mine?
take you, love you
Don't worry about a thing, I got you
Then I'm gonna touch you, hold you
What I gotta do to make you mine?
I know you heard about my player ways
I gave them all up today
If you let me take you, love you.
