[Intro]

Could you possibly? Could you? Could you possibly
rewind and come again?
Okay, Love Games Part 2, it's yo boy DJ Mark The Spot
We gon slow down for ladies
This one's called Play It Again, let's go

On the dance floor, this is that song
You need after you had a couple drinks
And I know you feel a little tipsy
So you lookin like a stripper when you move, uh, uh

You can back up on me if you want to
Don't blame it on the liquor cause you want to
And even girls are lookin at you like they want to
It's last call but I wanna see it one more time

[Chorus]

So tell em play it again
Oh girl, it's in the zone and she's killing it for me
Play it again before the lights come on
I can't let her go home alone
So if I gotta pay the DJ, put this thing on replay
Money ain't a thing over here, yea
So play it again!
Oh girl, it's in the zone and she's killing it for me

Tell your girlfriends to catch up with em lady
Cause we're leaving when the song goes off
I'ma close my yab up at the bar
Cause I got the same thing in my car

You can back up on me if you want to
Don't blame it on the liquor 'cause you want to
And even girls are lookin at you like they want to
It's last call but I wanna see it one more time

[Chorus]

So tell em play it again
Oh girl, it's in the zone and she's killing it for me
Play it again before the lights come on

I can't let her go home alone
So if I gotta pay the DJ, put this thing on replay
Money ain't a thing over here, yea
So play it again!
Oh girl, it's in the zone and she's killing it for me

I see Shawty in the front, Shawty in the back
Shawty on the dance floor brakin like that
Music's going off, them lights is coming on
We'd better tell the DJ this is your song

[Chorus]

So tell em play it again
Oh girl, it's in the zone and she's killing it for me
Play it again before the lights come on
I can't let her go home alone
So if I gotta pay the DJ, put this thing on replay
Money ain't a thing over here, yea
So play it again!
Oh girl, it's in the zone and she's killing it for me.
