[Intro:]

Love Games part two

Y'all thought we was playing with y'all!

We take this R&B game serious

Lonny Bereal, DJ Mark the Spot

Hey ladies, I want you to really listen

This to the joint! It's called 'Wait'

Now we've been going hard for a minute

She said she ain't like 'em other girls, she different

And she say she know how them other women want me
and they give it

Love so quick, this ain't like that, it'll be a while fore I
get it, get it!

Oh baby, why you made me wait for your love tonight?

Been patient, still chasing, says it's getting kinda hard
'cause I, I

Hook:

I kick television, you're doing me in the kitchen

All over the tables, counters, breaking dishes,

You keep saying we should wait, wait, wait!

And baby I wanna feel your body up on mine,

Cause you won't let me get it, this gonna take some
time

Girl you make me wait, wait, wait!

Now girl I know you got your morals and your values

And I don't wanna take them away

But you should know I don't play bargaining!

Girl, this ain't the same that you had before,

Whatever he gave you, girl I'll give you more

Oh baby, why you made me wait for your love tonight?

Been patient, still chasing, says it's getting kinda hard
'cause I, I

Hook:

I kick television, you're doing me in the kitchen

All over the tables, counters, breaking dishes,

You keep saying we should wait, wait, wait!

And baby I wanna feel your body up on mine,
Cause you won't let me get it, this gonna take some
time
Girl you make me wait, wait, wait!

Anything you looking for,
I can get you all of that
Want it like I want it
So stop fronting baby hold back!

Girl, please don't make me wait too long
For your love, oh girl
Cause things ain't gonna change
It would be too nice, it can only get stronger

Anything you looking for,
I can get you all of that
Want it like I want it
So stop fronting baby hold back!

Hook:
I kick television, you're doing me in the kitchen
All over the tables, counters, breaking dishes,
You keep saying we should wait, wait, wait!
And baby I wanna feel your body up on mine,
Cause you won't let me get it, this gonna take some
time
Girl you make me wait, wait, wait!

Anything you looking for,
I can get you all of that
Want it like I want it
So stop fronting baby hold back!
(Wait, wait, wait)
