I'm hitchhiking love  
Could you take me to the hill  
Im not heavy no I promise  
I heard you could fly  
Could you try  
(Could ah)

We can drive from mountain low  
Would you see how just  
You and me Oooh  
Been spending too much time on the ground  
Baby please show me how  
How you do it and don't let  
Let me down

Dont try to hide it  
Cause i see your wings  
If that dress was fabulous  
Dont hide it  
It aint a secret  
Everybody knows you fly, fly, fly  
I know you go up, you go up  
I wanna go up, take me up  
I wanna go up, take me up  
Dont try to hide it  
Everybody knows you fly

Oh i really aught to ask  
If i need a parachute or something  
Cause if you take me way up there  
I'll be scared to death of fall (Ooh)

We can drive from mountain low  
Would you see how just  
You and me Oooh  
Been spending too much time on the ground  
Baby please show me how  
How you do it and don't let  
Let me down

Dont try to hide it  
Cause i see your wings

If that dress was fabulous  
Dont hide it  
It aint a secret  
Everybody knows you fly, fly, fly  
I know you go up, you go up  
I wanna go up, take me up  
I wanna go up, take me up  
Dont try to hide it  
Everybody knows you fly

Gravity's blowing up my phone  
Do i wanna answer  
Them sidewalks calling me yeah  
Gravity's calling my phone  
I can't answer  
Ain't no service  
Way up here girl

We 25 thousand feet in the air baby  
If love is sky damn right we falling  
Falling in love  
But going up

Dont try to hide it  
Cause i see your wings  
If that dress was fabulous  
Dont hide it  
It aint a secret  
Everybody knows you fly, fly, fly  
I know you go up, you go up  
I wanna go up, take me up  
I wanna go up, take me up  
Dont try to hide it  
Everybody knows you fly
