I know I been gone  
I know it's been so long  
And girl I hope you miss me  
Cause you know I be missin' you babe (missin my baby)  
Yeah we talk on the phone every day  
But that just just don't do it for me  
I need you around yeah  
I can't do without you

Shorty my plane just now touched down  
Ima send a car to come get you from your house  
So be ready in an hour  
Just be ready

We only got one night  
The sun's gon' be setting in a while (you ready x2)  
We still got more light  
I'm down for what ever right now (you ready x2)  
Oh when the sky starts, sky starts changing  
Sweet love we'll be making Oooh oh  
Just tell me (you ready x2)

Open up the door  
Girl you got me thrown off  
Cause when you came yeah  
you couldnt feel my heart beat no  
Look into your eyes pretty hazel brown  
If you only knew what I'm thinking bout  
just know we right hear  
And now its so real

Shorty my plane leaves at 9 a.m. tomorrow  
But between then and now it aint far ooooh

We only got one night

The sun's gon' be setting in a while (you ready x2)  
We still got more light  
I'm down for what ever right now (you ready x2)  
Oh when the sky starts, sky starts changing  
Sweet love we'll be making Oooh oh  
Just tell me (you ready x2)

Aye yo  
We got one yo  
We got one yo  
We got on aye yo

Baby Ima take it slow  
I don't wanna let you go  
Never let go  
Oh i know you been patient  
Been waiting for this moment  
Right here  
Right now

whoo oo who oo

We only got one night  
The sun's gon' be setting in a while (you ready x2)  
We still got more light  
I'm down for what ever right now (you ready x2)  
Oh when the sky starts, sky starts changing  
Sweet love we'll be making Oooh oh  
Just tell me (you ready x2)

Repeat x2  
Aye yo  
We got one yo  
We got one yo  
We got on aye yo
