Maybe if we talk about the sun (don't talk about it,
Don't talk about it),
Maybe if we talk about you (don't talk about it,
Don't talk about it),
Baby when you talk about the guy who hurt you,
I just wanna tell you what I feel,

Maybe if we talk about love (don't talk about it,
Don't talk about it)

I don't wanna lose another chance to kiss you,
I just gotta show you how I feel,
Baby you will never find the sun without me,
'Cos I only want to think about you,

Baby please don't go (anywhere),
I wanna see your eyes (once again),
We're gonna feel this love (in the air),
And when I close my eyes I'll be there with you,

Maybe if we talk about the sun,
Maybe if we talk about you,
Baby when you talk about the guy who hurt you,
I just wanna show you how I feel,

I don't wanna lose another chance to kiss you,
I just gotta tell you I love you,

Baby please don't go (anywhere),
I wanna see your eyes,
We're gonna feel this love (in the air)
And when I close my eyes I'll be there with you,

Maybe if we talk about the sun,
Maybe if we talk about the sun.
