

Lost In The Light "Distance"

Visit "[Distance](#)" on MotoLyrics.com

Distance between us has grown from the start
Were we always meant to be so far apart?
So far apart
I've come too far to be told that I've fallen
That I have fallen short again
We've come too far to be told that we've fallen
That we've fallen, fallen short again
Distance between us has grown so far
Were we always alone, or can it be restored
Just walk away, just walk away from everything
We're not the same, I'm not the man I used to be
I'm afraid to face myself again
How can I stray from the man I've become
I always thought you seemed so far away
But the truth is there's nothing between you and me
Distance between us has grown so far
Were we always alone, or can it be restored
Just walk away, just walk away from everything
We're not the same, I'm not the man I used to be
Why do I stand where there's nothing for me
Will you watch as a fall or would you save me
I am afraid to face what should never ever be
Just walk away, just walk away from everything
We're not the same, I'm not the man I used to be
Just walk away, just walk away from everything
We're not the same, I'm not the man I used to be
