"Along The Way"

Visit "[Along The Way](#)" on MotoLyrics.com

I've been driving in circles, trying to find my way home
Nothing to believe in, I'm thinking of leaving
I travel these roads, times passin' me oh so slow
I've been driving for days, counting the ways
So I finally slowed down when I hit my home town
How I miss being around

(Chorus)

Stopped and had a drink with my Dad
Stopped at a friends along the way
I drove out where I grew up
Those were the days
This town has rearranged
But it's only me that has changed
Oh how I love
Oh how I miss my hometown

The road not taken, it's me that's mistaken
Times to blame, why I don't feel the same
Miss when I was young, when I was full of love
This is where my heart is at
This place will always bring me back
I sure miss home when I feel so alone
I need to turn around
Take me back home
Take me back home

(Chorus)

Stopped and had a drink with my Dad
Stopped at a friends along the way
I drove out where I grew up
Those were the days
This town has rearranged
But it's only me that has changed
Oh how I love
Oh how I miss my hometown
