I'm gonna predict the end of the world  
With you standin' by my side  
Two broken hearts will feel no pain  
Once united with God

No one will be all alone  
You'll have him to stand by  
He'll shine his grace upon you  
He'll look you in the eyes  
Can't you see here?  
It's perfectly clear  
His love shines all around you  
Through all the ups and downs

(Chorus)  
And know one knows for sure  
But his love endures  
If you read the Bible you'd declare  
There's a heaven up there

Walkin' around with no one  
One lost soul in this world  
Holdin' on to what I have  
Not very much, yes it's sad  
But as long as I have God by me  
I'll be safe for all eternity  
I'll never be alone

(Repeat Chorus)
