Hannah, I'm coming over  
Could you throw a blanket on the floor for me?  
Hannah, we both know your friends  
Are friends of the second degree

How long does it take?  
I can hear every beat in my heartache

Why don't you pick me up off the shelf  
Get a glass, pour me out, and drink me down?  
I don't know nobody else  
In this tressle town

Hannah, we can take the interstate  
To Ohio (carry me)  
Hannah, just set the light so I know  
So I know

Why don't you pick me up off the shelf  
Get a glass, pour me out, and drink me down?  
I don't know nobody else  
In this tressle town
