"Deja Vu"

I always knew, somewhere in time
We'd meet again, we'd cross that line
Don't need to question, no reason why
The answer lies before your eyes
Do you know who I am
Do you understand
Deja vu, dreams come true
I see my soul inside of you
Deja vu, so many lies
familiar spirits behind your eyes
we cross between world through windows of light
with open arms we hold back the night
the crystal of power we hold in our hands
we go on forever and love is the plan
Do you know who I am
Do you understand
Deja vu, dreams come true
I see my soul inside of you
Deja vu, so many lies
familiar spirits behind your eye
