DREAMING (TELL ME)
Shades of night fall upon my eyes
Lonely world fades away
Misty night, shadows start to rise
Lonely world fades away
In my dreams your face is all I see
Through the night you share your love with me
Dreaming
Visions of you
Feeling
All the love I never knew
Here we are on the crossroads of forever
Silent star lights the way
Walk with me on the winds on time
Love's mystery is for us to find
Dreaming
Visions of you
Feeling
All the love I never knew
Go on dreaming
Until the day, until the day I find you
I won't rest, I won't let go
Somehow, some way, I know I'll be beside you
To warm my heart and fill my soul
Go on dreaming
