Step inside the dream machine

you're on a power drive

feel the passion of the beast

watch her come alive

Oh-you're almost there, ride on silver air

you better hold on tight-she's fire in the night

Chorus

Faster than the speed of light

Hugging all the curves

Hang on to your life

Faster than the Speed of Light

Super charged and flying low

she's liquid dynamite

Got your hands upon the wheel

The pedal to the floor

now it's time for nerves of steel

hear the engine roar

Oh-you shoot to thrill-Heading for the kill

No control tonight-she's fire in the night

Chorus

Faster than the speed of light

Hugging all the curves

Hang on to your life

Faster than the Speed of Light

Super charged and flying low

she's liquid dynamite

Rev it to the Red line

you're tearing up the street

12 cylinders and she's all mine

she's too tough to beat

Oh-you shoot to thrill-Heading for the kill

No control tonight-she's liquid dynamite

Chorus

Faster than the speed of light

Hugging all the curves

Hang on to your life

Faster than the speed of light

super charged and flying low

liquid dynamite

Faster than the speed of light

Hugging all the curves

Hang on to your life

Faster than the speed of light

super charged and flying low

she's liquid dynamite
