Look out and see the rain, come in
Look out and see what it's brought in
Well hello, come in, it's nice to see you again
I waited around but you didn't show I thought you
weren't bothering

Good job I saw you
You must be soaked
I'll take your coat
Hah! hah!

Wait till it stops, then we shall leave together
Better not chance it, I'll take along my umbrella

Good job I saw you
You must be soaked
I'll take your coat
Hah! hah!

Don't just stand there come on in, yeah
Come on, come on in
