There's my bill now I'm all on the run
There's my pills gonna have some fun
But there's no smoking kill that weed
No man saw about me, watch me bleed

*Cool winds blowing, sky is filled upon
Looks like things are turn the real wheel
Christ is Jesus, I need somebody here

Like men crushing down the road
Jesus can be out this home
Freedom just a war to me
Shere with blind hours let me be

(* repeat)

Looks like somebody else
Cut his hair and shaved his beard
Woo Jesus woo
Woo trying my heart

Well I don't need trouble
Let's keep it clear
I see you in double
Where's the kick
The fuzz that I'm lying around the floor
I can't strees scene what I just saw
(* repeat)

Looks like somebody else

Kick him down to long out bar
Always do that walk at hard
Seems there is a mystery
Like a thunder and lightning kid

(* repeat)
