By: Barry Manilow & Adrienne Anderson

Whatcha gonna do with my time darlin
Whatcha gonna do with my soul
When ya gonna make up your mind about me
What do you still need to know
When are ya gonna walk out the door forever
Where are ya gonna run and hide
Darlin cant ya see that its now or never
Say youre gonna stay or say good-bye.
But lets get on with it
Lets get started
Climb up or fall down the hill
Either forward or else its backward
But nothing ever stands still
So lets get on with it.
Whatcha gonna do with the hope inside you
Whatcha gonna do with your dreams
How ya gonna live with all those memries
Wonderin how it might have been
All Im askin is to keep on tryin
All ya gotta do is hold on
No ones gonna guarantee tomorrow
But its gonna be here before too long
So lets get on with it
Lets get started
Climb up or fall down the hill
Either forward or else its backward
But nothing ever stands still So lets get on with it.
