Verse:

There's one thing I need to get off of my chest,
Before I go, there's something I need to confess,
You people need to practice just what you preach,
Living life ain't something that you can teach,

Chorus:

Seize the day today, and find a new way,
the future's not set in stone, are you trying to control?
Let yourselves go, all you need to know,
Is this life will come and it will go

2nd Verse:

I dig my way out of this hole,
I dig my way out to save my soul,
Need some guidance to be shown the way,
I need to know how to Carpe Diem Today.

2nd Chorus:

Seize the day today, and find a new way,
the future's not set in stone, are you trying to control?
Let yourselves go, all you need to know,
Is this life will come and it will go

Bridge:

Live now, live here,
live your life free of fear,
I'll maybe fall away again,
No need to worry about the end,
All we need to do is remember,
that our time is not forever,
One thing they can't take away,
Is your right to seize the day.
