In secret I'd wait for you to arrive
You always came coz you could never refuse me
In the dark we felt our way
You were right there with me
I'll never let you forget me
I'll be right there beside you

And you make my heart swoon
I like it coming from you
You make my heart swoon

In secret you'd wait for me to arrive
I always came coz I couldn't refuse you
In the dark we felt our way
I was right there with you
You'll never let me forget you
You'll be right there beside me

And you make my heart swoon
I like it coming from you
You make my heart swoon
