I Love you

So I see your face on the other side, I'm trying to speak to you, but there's someone else not just every else and that only makes me Love you . I don't want to do this anymore that's my life shooting through and I want her to love me just as we do but see even fairy tale has love and if life were true I would be the one in love with you. Someone can call me just call me and get my mind off her I can't take this I can't fight it because I'd lose the shine of her face makes it better and the glare in her eyes lasts forever and the days I just can't stop thinking of you is the day when I can say I l-o-v-e y-o-u.

When you leave I would know that you'd come back one day and that all that's all that I could say until that day when she shown through and the light passed her - passed her through she changed but I knew she was still there deep within the body I once knew.

The tears the pain the suffering and I can't seem to fight them more, what's wrong with me I can win this fight when there's no love she think he brings but we can't right the wrong.

So I see your face on the other side, I'm trying to speak to you, but there's someone else not just every else and that only makes me Love you . I don't want to do this anymore that's my life shooting through and I want her to love me just as we do but see even fairy tale has love and if life were true I would be the one in love with you. Someone can call me just call me and get my mind off her I can't take this I can't fight it because I'd lose the shine of her face makes it better and the glare in her eyes lasts forever and the days I just can't stop thinking of you is the day when I can say I l-o-v-e y-o-u.

So I love her.
