It may be, that you have had a vision  
And it may even be that you believe it's new  
And it may be that you become a politician  
That doesn't necessarily mean that this is true

Come on and think it over  
Well, you better think twice  
until you realize...

Once again it is the beat that drives the story  
And once again we're driven into the groove  
I will keep the pace for you so don't you worry  
We'll keep on driving till this demons move...away...

It may be that you, don't know how to use it  
And it may be that you can't even get your share  
And it may be they are gone to treat you till you loose it  
That doesn't necessarily mean that they don't care
