Bounce Baby-NB Ridaz

West coast baby, uh yeah

2001, NB Ridaz

New Edition Baby

(Yo ridaz come on)

[Chorus]

Bounce baby, baby throw your fists to the sky

Let a young ridaz show you fools how to fly

East to the west, north to the south (M1 and Ddogg)

We got it lockdown

Bounce baby, baby throw your fists to the sky

Let a young ridaz show you fools how to fly

East to the west, north to the south (M1 and Ddogg)

We got it lockdown

Bounce with the hunniez

Get the cash at that, Ddogg be the man, Can you feel that?

Running through the neighborhood

Dedicating this world to the hunniez looking real good

You talk brave but when I step on stage

Kicking hot flows 'cause I gotta get paid

So get up, get out and let's ride tonight

It's all about the boys from the AZ side

They wanna know what's really going on

With a player like me always down the road

Born and raised in the big AZ and to all the mamacitas

Would you bounce with me?

[Chorus]

Bounce baby, baby throw your fists to the sky

Let a young ridaz show you fools how to fly

East to the west, north to the south (M1 and Ddogg)

We got it lockdown

Bounce baby, baby throw your fists to the sky

Let a young ridaz show you fools how to fly

East to the west, north to the south (M1 and Ddogg)

We got it lockdown

M1 makes it hot won't stop till you drop it

Young ridaz make you jump got you totally crossed out

From the east to the west (yeah we rock like this)  
From the north to the south (yeah we rock like this)  
In the mix is where we at  
Cause we gotta like that  
Pull them up, raise them up cause we next to bat  
I'll be hitting more hits than a diamond bat  
Wanna roll let's go it's a party for sure  
M1 be the one that be running the show  
Now come on come on if you're down to ride  
It's the next generation from this AZ side  
So bounce baby, baby bounce baby, baby ride

[Chorus]

Bounce baby, baby throw your fists to the sky  
Let a young ridaz show you fools how to fly  
East to the west, north to the south (M1 and Ddogg)  
We got it lockdown  
Bounce baby, baby throw your fists to the sky  
Let a young ridaz show you fools how to fly  
East to the west, north to the south (M1 and Ddogg)

(M1)

So let the young one, M1 step into the mix  
For my sexy mamacitas and my rider chick  
We're rolling through your valley with the hot new flow  
'cause I'm gonna get it to you harder than it's ever  
done before  
(Ddogg)  
We be rocking hot licks since 10 years old  
In the mall young hunniez won't leave us alone  
Don't trip when I spit getting all excited
