When two cars crash  
You can pull them apart  
But when lovers clash together  
They get tangled heart to heart  
And nothin', and no one  
Can get them unstuck  
Love can be some bad luck  
Love can be some bad luck  
Oh yeah  
When glass breaks  
You can sweep it away  
But when lovers take a tumble  
They keep breaking day by day  
And nothin', and no one  
[Bad Luck lyrics on ]Can get them unstuck  
Love can be some bad luck  
Love can be some bad luck  
Oh yeah  
Medicine won't cure the pain  
But it doesn't pay to give the blame  
You're still gonna feel the same  
And next time you start to feel secure  
At that moment you can be sure  
That bad luck is at your door  
And nothin', and no one  
Can get them unstuck  
Love can be some bad luck  
Love can be some bad luck  
Love can be some bad luck
