"Expect This Shit"

Visit "[Expect This Shit](#)" on MotoLyrics.com

I let it go when I should've kept it
Let you know when I shouldn't have said it baby

Completely irritated , hard to communicate
It's built up in my system , got to get rid of him
I chose what to believe in now fuck if you get it I'm
leaving
Taken him back what I gave him he don't like it and I
don't blame him

I can honestly say that I reserve the facts forgive me
Not that the truth was hidden just the game that stayed
with me
See I compromise my standards, done with the
underachievers
Despite the deception I felt like I needed you

[Chorus]

I let it go when I should've kept it
Give you love when I should've felt it
Let you know when I shouldn't have said it
Follow my heart when I shouldn't let it
Oh no , I shouldn't let it
Oh no , I shouldn't let it
Oh no , I shouldn't let my heart away from you

Do the facade that kept dealing you the cards
Satisfy with me in the parts
Taking this too far told you this companionship is
trusting
Some instances were adjusted
Never wrote down your dismembership
Whole thing kinda messed about

I can honestly say that I reserve the facts forgive me
Not that the truth was hidden just the game that stayed
with me
See I compromise my standards, done with the
underachievers
Despite the deception I felt like I needed you

[Chorus]

I let it go when I should've kept it
Give you love when I should've felt it
Let you know when I shouldn't have said it
Follow my heart when I shouldn't let it
Oh no , I shouldn't let it
Oh no , I shouldn't let it
Oh no , I shouldn't let it

Start what you defended
Run apart when I should defend it
Let you in never could object it
Dream I should
Expect this shit (x6)
From you
You should've lead my heart away from you

[Chorus]

I let it go when I should've kept it
Give you love when I should've felt it
Let you know when I shouldn't have said it
Follow my heart when I shouldn't let it
Oh no , I shouldn't let it
Oh no , I shouldn't let it
Oh no

Let it starve when I shouldn've feed it
Broke apart when I should've mend it
Let you in when I should've reject it
Broke the dream when I should've expect it
Expect this shit from you (x4)
You should've lead my heart away from you
