(m. crenshaw, d. weiss)

The same old sounds, the same old sights  
The same old friday and saturday nights  
We're out all night, we must have fun  
It's hard to know, but it has to be done.  
I'm gonna be relieved when I can finally stop  
And do the monday morning rock.  
Neon lights of pink and blue  
A drink in my hand and my arm around you  
The beat runs on 'till way past dawn  
The doors open up, there's a day going on  
That's when I know I gotta go home and set my clock  
To do the monday morning rock.  
Well now everybody all up and down the block  
Let's do the monday morning rock.  
No more fun, the weekend's done  
We've done our duty, now we're all alone  
I touch your hand, your eyes meet mine  
It's warm, it's quiet, and I'm feeling fine  
Let's turn out all the lights and lock the lock  
And do the monday morning rock.
