(m. crenshaw)

Whenever idleness is making me insane  
Well then I feel I should be getting the train on the  
double  
Here comes trouble  
I hit the city and my head is a-reelin'  
I get the feelin' that it was really was worth going after  
When we're tastin' disaster  
So 'round and 'round and 'round we go  
Through seventeen lights in a row  
Take a hold of my hand and come with me  
We'll go rockin' around in nyc  
Whenever ennui is takin' me way down  
Well then I feel I should be gettin' to town on the double  
Here comes trouble  
I hit the city and I'm feelin' the thunder  
No need to wonder if it was really worth going after  
When we're tastin' disaster  
So 'round and 'round and 'round we go  
Through seventeen lights in a row  
Take a hold of my hand and come with me  
We'll go rockin' around in nyc
