(m. crenshaw)

The dead of night and I'm all alone, yeah  
I got my hand on the telephone  
I've got to get ahold of you, 'cause when I do  
I tell you something's gonna happen  
Now just forget about your boyfriend, yeah  
And I'll forget about my girlfriend  
Come over and I'll show you how, I need you now  
I said something's gonna happen  
Aw baby, baby, baby  
You know you really really wreck my nerves  
You got my head goin' round and my feet off the  
ground  
(you got me hangin' on the telephone)  
Now we're all alone with the lights on down low, yeah  
Rockin' music on the radio  
It's just the way it ought to be, and momentarily  
I tell you something's gonna happen
