(peter case)

Well all those nights they hit rock bottom
The songs they sang, well, we forgot 'em
You could hear them play with shaky hands
Guitars strung up with rubber bands
Singing do you want a man of steel?
Or do you want a man that's real
They used to play in the courts of kings
Now they're only made of steel when they're
On steel strings
They used to be on every schoolgirl's wall
And they never dropped the beat at all
They could make it soar, they could make it hot
Once they got started they could never stop
[Steel Strings lyrics on]Singing, do you want a man of
steel or
Do you want a man that's real?
Some of them hide when the doorbell rings
They're only made of steel when they're on steel
strings
Playing the man on steel strings
Were you expecting maybe superman?
The best they do is the best they can
The manager's doing time in jail (applause)
And the pink cadillac is up for sale
Singing do you want a man of steel
Or do you want a man that's real
They try their hands at a thousand things
But they're only made of steel
When they're on steel strings
