(m. crenshaw)

House of greed/screen gems (ascap)

You gave me a reason, to laugh when I was down
And you are all I feel for, you're all I care for in this
town
Where we would have to die to survive
I know we would feel more alive
If of this could be, a vague memory
A vague memory may never go away
But it won't bring you down day after day
For those who can't feel what a young heart can feel
This place holds something familiar and real
But for you and me, it's a vague memory
A vague memory may never go away
But it won't bring you down day after day
For those who can't feel what a young heart can feel
This place holds something familiar and real
But for you and me, it's a vague memory
Yes, for you and me, it's a vague memory
It's a vague memory
A vague memory
