We're having a good day  
Let's make it a great night  
You know I see you And so tight  
My special lady, you're one of a kind  
And every time I see you shine

It's like the lights of midnight  
On New Year's Eve  
And I do believe  
On New Year's Eve  
We can make it, we can live forever

11:59 and not a second later  
She's stayin' in the mix, like a crossfader  
It's about to go down, no elevator  
Live for the moment, love in the air

She got me feeling like  
I don't wanna be your player, real talk  
So I don't wanna be unfair  
Now watch the apple drop

And celebrate the year  
I see you shinin' away from over there  
And all the other girls  
No, they don't compare  
I whisper something bond to you

In your ear, I infiltrate your mind  
And then I penetrate her  
I get it crackin', baby  
Call me the lady

We're having a good day  
Let's make it a great night  
You know I see you and so tight  
My special lady, you're one of a kind  
And every time I see you shine

It's like the lights of midnight  
On New Year's Eve

And I do believe  
On New Year's Eve  
We can make it, we can live forever

Grab a glass, make a toast to the good life  
Recorded line, so what? It will pass the time  
Leather seats in the back of a Phantom ride  
You stay on my mind so I had to make you mine

Master, for a master mind, my special lady  
Only one of a kind, I never seen it comin'  
I guess love is blind, New Year, come to life

I must say girl, you're looking right  
Your hair, nails, dress, fitting tight  
I think I just might says here's the one I like  
See we can look forever, girl, let's be tonight

We're having a good day  
Let's make it a great night  
You know I see you and so tight  
My special lady, you're one of a kind  
And every time I see you shine

It's like the lights of midnight  
On New Year's Eve  
And I do believe  
On New Year's Eve  
We can make it, we can live forever
