It started out when I was six
I played a string for every year I lived
I was 13 when you got sick
But I knew we could push through it
I didn't really say that I loved you
But you knew, you knew, you knew
Down and out, through and through
You know I'll always love you

I don't know where we'll be, where we'll be in 50 years
I just hope we'll be together again
And I don't know where I'll be, where I'll be in 50 years
All I know is where I've been

And we can start again
Cause we were little kids back then

So where have you been
You haven't called
I guess you haven't missed me at all
We were 17 thinkin' we're in love,
We were 18 when we broke up
I didn't really say that I loved you
But you knew you knew you knew
Down and out, through and through
You know I'll always love you

I don't know where we'll be, where we'll be in 50 years
I just hope we'll be together again
I don't know where I'll be, where I'll be in 50 years
All I know is where I've been

We can start again
Cause we were kids back then

It started out 'bout three weeks ago
I got that letter that you wrote
I studied every line that it read
It started out with the line that said
I didn't say that I loved you
But you knew, you knew
Down and out, through and through

You know I'll always love you

I don't know where we'll be, where we'll be in 50 years

I just hope we'll be together again

I don't know where I'll be, where I'll be in 50 years

All I know is where I've been

We can start again

Cause we were kids back then
