I'm watchin' it all fall down.
I'm watchin' you fall out of my arms,
Out of my arms, out of my arms.
And I'm watchin' it all burn down.
I'm watching it all burn to the ground,
Burn to the ground, down to the ground.

I went from nose bleed to front row seats
To watch my own symphony pour out of me
I went from down side to the wild west
To watch my own heart collide in my chest
But it's not what you're thinking
No I'm not complaining
I'm just simply stating
To hear myself saying
I stand in the middle of what I believe in
Go back and forth with the heart on my sleeve

I'm watchin' it all fall down.
I'm watchin' you fall out of my arms,
Out of my arms, out of my arms.
And I'm watchin' it all burn down.
I'm watching it all burn to the ground,
Burn to the ground, down to the ground.

Ashes, ashes, we all fall down
Burnin' bridges, we're burnin' to the ground

I went from way in the back to first class
I'm lookin' towards the future, you're still stuck in the
past
And I went from Beverly Hills to China Town
To watch everything I love burn down to the ground
But it's not what you're thinking
No I'm not complaining
I'm just simply stating
To hear myself saying
I stand in the middle of what I believe in
Go back and forth with the heart on my sleeve

I'm watchin' it all fall down.

I'm watchin' you fall out of my arms,
Out of my arms, out of my arms.
And I'm watchin' it all burn down.
I'm watching it all burn to the ground,
Burn to the ground, down to the ground.

Ashes, ashes, we all fall down
Burnin' bridges, we're burnin' to the ground
Ashes, ashes, we all fall down
We're burnin' the bridges, we're burnin' to the ground

I'm watchin' it all fall down.
I'm watchin' you fall out of my arms,
Out of my arms, out of my arms.
And I'm watchin' it all fall down.
I'm watchin' you fall out of my arms,
Out of my arms, out of my arms.
