Slowly but surely
We've become undone
We're watching each other
Like we're facing a gun
Thought I needed you
And you needed me
But it got too late
You're saying that you're sorry
But it's all a game

You build me up and break me down
You dig me into the ground
And when you come back to town
There's no more loving around
It's all these games you play
It's all these games you play
You're like a love arcade
You're like a love arcade
I might be losing you but I'm finding the way
I might be losing you but I'm winning the game
goodbye
So long, so long, so long, baby goodbye
I'm gone, I'm gone, I'm gone
Baby goodbye,
I tried to make it right
But baby goodbye
So long, so long, so long, baby goodbye

You build me up
You bring me down
It's like I'm trapped in a maze there's no way out
But it's all for your entertainment
My heart in the basement
And everything's changing
See look who you're blaming
See things are amazing
No I wouldn't change it
For your information my heart stopped racing
But I gotta keep moving
I can't keep losing
No I don't understand what's the point you're proving

You build me up and break me down
You dig me into the ground
And when you come back to town
There's no more loving around
It's all these games you play
It's all these games you play
You're like a love arcade
You're like a love arcade
I might be losing you but I'm finding the way
I might be losing you but I'm winning the game
goodbye
So long, so long, so long, baby goodbye
I'm gone, I'm gone, I'm gone
Baby goodbye,
I tried to make it right
But baby goodbye
So long, so long, so long, baby goodbye

I needed you and you needed me
But it got too late
You're saying that you're sorry
But it's all game

You build me up and break me down
And there's no more loving around
You build me up and break me down
And there's no more loving around

So long, so long, so long, baby goodbye
I'm gone, I'm gone, I'm gone
Baby goodbye,
I tried to make it right
But baby goodbye
So long, so long, so long, baby goodbye
So baby goodbye
So baby goodbye
