Fight the distance

Fight the distance

Fight the distance

She's a thousand miles away
Still I feel her every day
And I wish that I could say
So much I love you, I love you
And the wind is like a whisper
'Cause I hear him when he calls
Standing in this thing together
Catch each other if we fall

Chorus:

We stand to test of time
Will make it if we try
Will find a way to fight the distance
No matter where we are
We can't connect the thought
And find a way to fight the distance
I can feel you here with me
My heart soft beating and put fixing
It doesn't matter if you're across the sea
'Cause I know that we, we can fight the distance

Seeing all the lights are rough
And the city is fast asleep
I'm the only one awake
'Cause I live to see your face
And though the clock keeps ticking
And all the eldest passing
It feels like time is frozen
Until the day I get to you

[2x Chorus:]
