I, I can give you more
More than I say, more than I do!
And I, I should give you more
More than I try, more than you take!
You've been waiting here patiently, never left my sight
I keep saying I'm going change, but maybe now it's
time
To prove that I can:

Chorus:

I can give you more, I can give you love
I can show you everything my heart is ever dreamed of
I can give you trust and all my loyalty
I can be the man that you knew I could always be
And I can give you more!

No one said it would be easy, no, no
We'll have our share of upside downs, yeah, yeah
But baby I promise, I'll be a better man
And prove to you I can!

Chorus:

I can give you more, I can give you love
I can show you everything my heart is ever dreamed of
I can give you trust and all my loyalty
I can be the man that you knew I could always be
And I can give you more!
